Title	MINEDEX Operating Mine Map Data Extract
Jurisdiction	Western Australia

Description

Abstract	MINEDEX provides a coordinated, project-based enquiry system for textual information on mine, deposits, prospects, etc., and related infrastructure. The Operating Mine Map custom data extract is a regularly-updated point representation of the State's mines that have a Status of either operating or under development that appear on an annually produced map. The mines are automatically selected by Status and updated regularly.
